

CARE & MAINTENANCE : FACT SHEET

Polywood

Polywood is a great outdoor product due to its longevity.

When cleaning, use a very mild soapy solution to wipe down the wooden surface. Surface characteristics of the product may require the use of a soft bristle brush to get into the creases.

For fine surface scratches use a very fine emery board and sand with the grain gently.

*Note: Always use caution when opening boxes and removing the protective materials. Avoid using anything sharp as to not damage the products.
